Amy,
Ben has already suggested a new item. His suggestion calls for an additional fourth bullet point, the deletion of one of my suggested bullet points, or a consolidation suggested bullet points.

I've not yet heard for Lydia.

Subject: CES Environmental Services, Inc.-Houston (A6JP) - Suggested bullets

Amy,

The following are my suggested narratives for three bullet points.

- EPA issued General Notice letters to 73 PRPs. Forty-six of the PRP have agreed to negotiate with EPA.
- Lubrizol Corporation, one the 46 PRPs, has informed EPA it has identified approximately 800 additional PRPs
- On 02/23/17 Lubrizol will meet in Dallas with EPA to present its findings concerning the approximate 800 entities.

If needed, feel free to modify. Unless you advise me otherwise, at 9:30 tomorrow morning Sharon will insert my suggested narratives or your revised narratives into the PowerPoint background she has already selected.
